

## FY27 AASHTOWare Project Licensing Information

- **FY27 License fee increase**
  - A la Carte options are increasing by approximately 10%.
  - Bundle options are increasing by approximately 8%.
- **The Vendor Management Portal (VMP) is now available**
  - Integrated solution to manage vendor registration and prequalification.
  - VMP is available as part of the Preconstruction license.
- **The Field Interviewer Mobile Application will be sunset on June 30, 2026.**
  - It will no longer be available for download and will be unsupported.
  - The Civil Rights & Labor license will be reduced due to this sunset.
- **Pre-Production testing site will now be included in the base hosting options.**
  - Base hosting options include up to 5 sites including pre-production site.
  - Supplemental hosting option is available if more than 5 sites are needed.
- **No cost Estimation license with paid Estimator License Option (Note #3 in AASHTOWare catalog) will no longer be available in FY28.**
  - This option is not eligible in FY27 as part of bundles because they are already discounted.
- **HaulHub – EDOT Portal**
  - **FY27:** The AASHTOWare Catalog will offer two licensing options for the EDOT Portal:
    - **Option 1:** EDOT Portal Technical Validation Program - A fixed-price annual license of \$50,000 for agencies that have not yet started e-Ticketing or are very early in the process.
    - **Option 2:** Scaled Platform License - A variable pricing model based on federal program size and connected supply chain. This option requires a valid quote from HaulHub.
  - **FY28 (July 2027) and Beyond:** AASHTOWare will no longer offer the HaulHub EDOT Platform through the AASHTOWare Catalog. Agencies must work directly with HaulHub, or an authorized reseller, to access the full EDOT Platform tailored to their specific program needs. Bi-directional integration with AASHTOWare Project will remain fully supported.
  - For more information related to eligibility for the Validation Program or procurement of the EDOT Portal, please contact [Brandon Hundley, Senior Vice President, Public Sector Partnerships, HaulHub](#).
- **Refer to the tables in the subsequent pages for a breakdown of:**
  - FY26 license fees (current fiscal year)
  - FY27 license fees (upcoming fiscal year)
  - Maximum projected fee increases for FY28
